**Prof. Aleksander Weron**  
**Director of Hugo Steinhaus Center**

Dear Professor Weron,

I would like to offer my very warm thanks to you and the Hugo Steinhaus Center, especially to professor Krzysztof Burnecki and professor Zbigniew Palmowski, for your valuable support. I really appreciate your active promotion of Wrocław Agglomeration Development Agency activities aiming at attracting and supporting investors. Thanks to the involvement of the Wrocław University of Science and Technology, Wrocław became a leader in the field of absorption of investment projects, as well as the hub with the biggest amount of R&D and IT centers in the whole country.

Additionally, I am convinced that through your meetings with the representatives of Allianz, during which you have brilliantly explained a study profile and Polish system of education on the Faculty of Pure and Applied Mathematics, the global company has decided to open it's own knowledge center in Wrocław, which will prepare and develop mathematical models for insurance and financial sector. The representatives of Allianz frequently emphasised, that the meetings with Wrocław University of Science and Technology representatives significantly influenced the company's decision to invest in Wrocław.

I am very grateful for your help and I am looking forward to a long and fruitful relationship.

Yours faithfully,

Ewa Kaucz  
President of the Board
